

SHARE WALLS, NOT SMOKE

WHEN ONE PERSON SMOKES,
EVERYONE IN THE BUILDING SMOKES

NONSMOKERS EXPOSED TO
SECONDHAND SMOKE AT HOME
HAVE AN INCREASED RISK OF

HEART DISEASE
STROKE
LUNG CANCER

Centers for Disease Control

ALLOWING SMOKING IN
MULTI-UNIT HOUSING MEANS

HIGHER RISK FOR FIRES

INCREASED COST FOR
UNIT TURNOVER

LOSS OF POTENTIAL
RESIDENTS

American Lung Association

CHILDREN EXPOSED TO
SECONDHAND SMOKE AT HOME
HAVE AN INCREASED RISK OF

SUDDEN INFANT
DEATH SYNDROME
EAR & RESPIRATORY
INFECTIONS
ASTHMA
ATTACKS

Centers for Disease Control

SMOKE-FREE POLICIES ARE
GOOD FOR **BUSINESS** AND GOOD FOR **HEALTH**

ELIMINATING SMOKING IN
INDOOR SPACES IS THE
ONLY WAY TO FULLY
PROTECT NONSMOKERS FROM
SECONDHAND SMOKE
EXPOSURE.

Report of the Surgeon General

“THIS IS JUST ANOTHER STEP IN OUR
EFFORTS TO MAKE OUR PROPERTY
**SAFE AND HEALTHY
FOR ALL RESIDENTS.**”

-PROPERTY MANAGER ON
GOING SMOKE-FREE

RESEARCH SHOWS THAT A
MAJORITY OF
**RENTERS PREFER A
SMOKE-FREE RESIDENCE**
OVER ONE THAT IS NOT.

Live Smoke Free

EVERYONE HAS THE RIGHT TO BREATHE
CLEAN, SMOKE-FREE AIR
